Election/Restrictions

This application contains claims directed to patentably distinct inventions.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1 drawn to shelf dividers classified in class 211, subclass 184
- II. Claim 2, drawn to a rolling platform classified in class 280, subclass 29
- II. Claim 3, drawn to knockdown shelving panels ("Plastic Connections")
classified in class 211, subclass 189.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06).

In the instant case, the different inventions of the shelving dividers, rolling platforms and knockdown shelving ("Plastic Connections") do not require use together and can each be used for separate and distinct purposes.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the

record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103 (a) of the other invention.

The examiner attempted to contact Mr. Robert Wroten on Thursday, May 24th, 2007 at the number provided on the Declaration of March 19th, 2004, (503) 248-6781; however the line appeared to be disconnected at the time and did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Colleen M. Quinn whose telephone number is (571) 272-6289. The examiner can normally be reached on 8:30AM-5:00PM Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Cuomo can be reached on (571) 272-6856. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
